Styles:  
 • Available with wrapped edge, aluminum or wood trims

### TACKBOARDS

Choose from five different facings:

- Natural Cork – the traditional surface
- Krommenie® Cork – twelve colors, washable surface, more durable than natural cork
- Vinyl Fabric – durable surface in unlimited selection of colors
- Panel Fabric – a warm designer look to fit any decor
- Hook Fabric – a velcro display fabric

Constructions:

- Cork on Masonite
- Cork on Fiberboard
- Fiberboard
- Optional .005" foil laminate to prevent warping

### CRAFTSMANSHIP. YOU CAN TELL BY HOW IT LOOKS ... AND LASTS

For over thirty years we have been building writing boards, tackboards, display cases and a reputation for quality crafted products that last.

We start with the highest quality components:

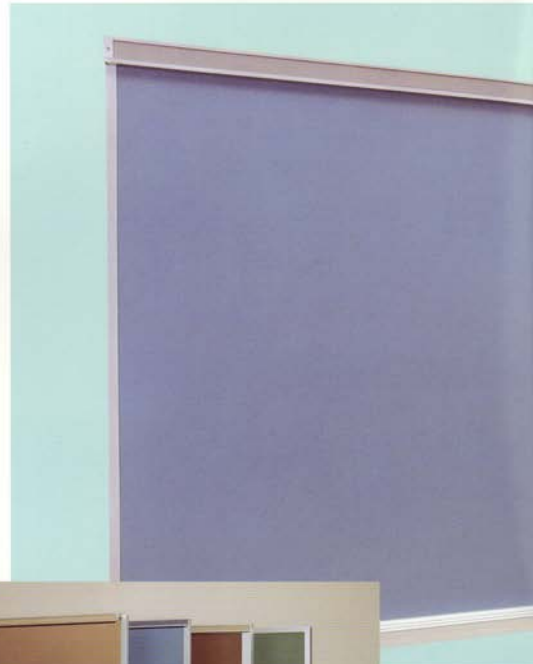

- Aluminum extrusions with close tolerances and uniform anodized finish
- Porcelain-on-steel writing surfaces with lifetime warranties
- Heavyweight vinyls and fabrics with lasting quality

And we custom build a style or color to allow you the maximum flexibility in designing your classroom, office, or display area.

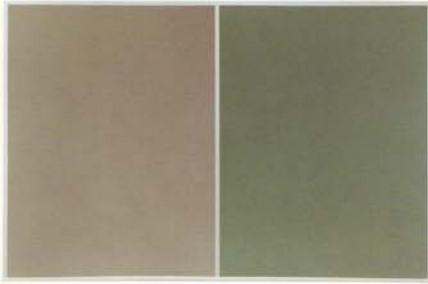

But most important is the craftsmanship that we build into our custom manufactured products. The noticeable difference in corners that fit tight and smooth. All operating parts working quietly and easily. Doors and locks that fit evenly and tight.

It is attention to every detail ... from custom design to protective packaging for delivery. That makes the difference.

Quality you can see at first glance. Value you know will last.

### COMBINATION BOARDS

- Customize your wall by integrating display surfaces in one frame system
- Full wall or factory framed units up to 16'
- Any of our trim styles can be used to create a combination to meet your needs

### CHALKBOARDS

Constructed of the highest quality porcelain-on-steel for years of heavy use. The surface is magnetic, giving you more than just a writing board. And with six standard colors you have ample flexibility. Available in any construction to meet your spec – or we'll work with you to select a construction that will best suit your environment.

#### TRIMS FOR ALL VISUAL DISPLAY PRODUCTS

- A. Wood – standard 1½" face oak trim or custom trims to fit your decor
- B. Modular – integrated hooks for adjustable mounting
- C. EZ-Hang – wrap around trim fits flush to wall with extended leg for concealed fasteners
- D. Deluxe – EZ-Hang or J-Trim with a wide dimensional face
- E. J-Trim – standard wrap around

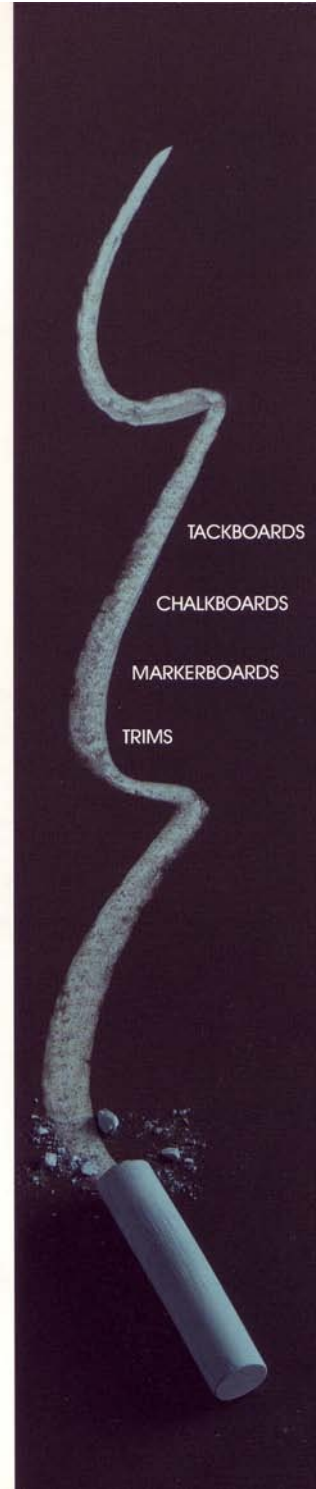

Your choice of box tray (with molded endcaps) or continuous blade tray. Display rail is optional in 1" or 2" widths.

### MARKERBOARDS

Markerboards are also high quality porcelain-on-steel construction. Magnetic for multi-use and dust free for offices or computer rooms where chalk is less desirable.

Colors: White, Suede, Silver Screen Gray, Blue and Green  
Also available: Porcelain Plus® a low gloss surface suitable for use as a projection screen.

### MOBILE AND FREESTANDING BOARDS

Select the style that works for you:

- Revolving or fixed boards up to 12'
- Available in chalkboard, tackboard or a combination for maximum flexibility
- Select optional full bottom panel for added privacy
- Full perimeter frame with heavy reinforced corners for lasting strength
- With or without casters for mobility from room to room

### VERTICAL AND HORIZONTAL SLIDING BOARDS

Maximize your usable wall space with sliding boards sized to fit your room. Chalkboard, markerboard, tackboard or any combination of multiple sliding panels can be assembled to expand wall space. Can be installed with fixed back panel or open back to provide access to storage or additional display.

**Vertical Sliding Boards** – counterweighted design with aircraft-quality moveable parts provides smooth, quiet operation and long life.

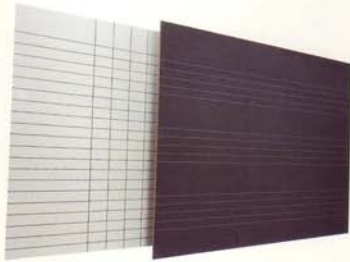

**Horizontal Sliding Boards** – available in hanging roller or bottom sheave design. In sizes ranging from wall hung to full height wall panels.

### LECTURE CASES

For the classroom or conference room:

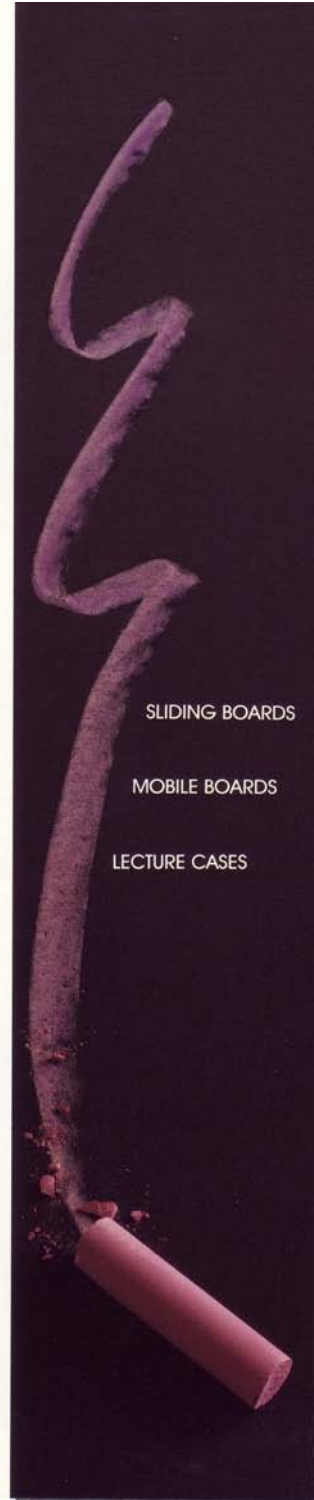

- Your choice of markerboard, chalkboard or tackboard
- Opens to provide maximum display area
- Closes to provide privacy
- Choose from a variety of wood, plastic laminate or rugged aluminum exterior finishes
- Optional pull down movie screen available

### CUSTOM GRIDS AND GRAPHS

Meeting planners, scheduling boards, music lines, math grids. Custom designed to meet your needs.

- Available on chalkboard or markerboard
- High contrast graphics or muted penmanship lines

LECTURE CASES

Recessed Case

**Recessed Cases** – a flush mounted case front constructed of heavy duty aluminum extrusions designed to fit together with interlocking angles that keep miters tight and smooth. Three versions of recessed case are available depending upon your design and size requirements. All are available as casefronts only or complete with box and hardware.

**Wall Hung Cases** – traditional wall mounted style combined with a unique system of internal reinforcements that maintain the appearance of this case over years of service. Intermix tubing styles to provide a variety of designs. Glass arrangements can be varied to allow additional variety in design.

**BULLETIN AND DIRECTORY CASES**

These slim line cases are only 2" thin and available with changeable letter directory or tackboard back panels. Sized to fit your requirements. Bulletin cases can be wall mounted or furnished with frame style trim for recessed installation.

**Directory Letters**

- Available in sizes 1/4" through 3"
- White and colors

#### PORTABLE DISPLAYS AND EXHIBIT PANELS

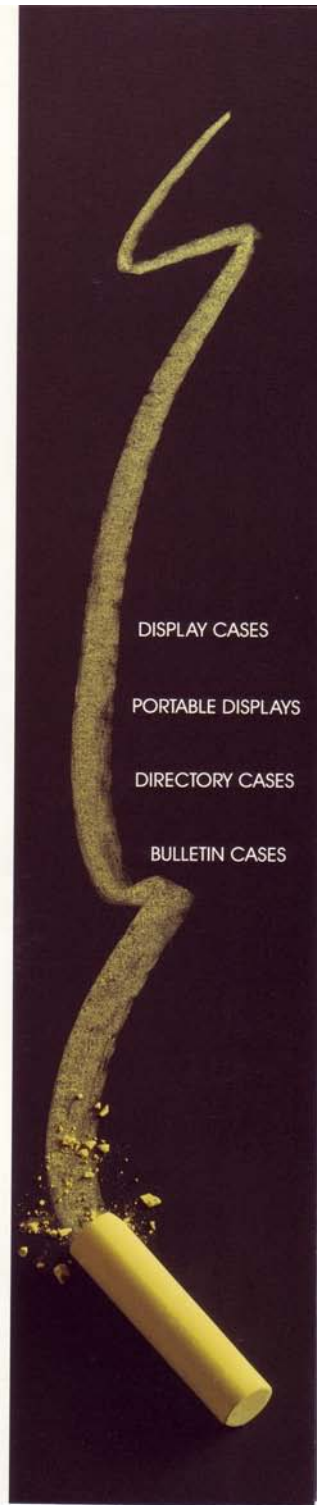

- An attractive way to expand exhibit space for trade shows or temporary exhibits
- Can be used as space dividers
- Combine up to six panels in sizes to 8' high
- Choose from any tackable or writing surface

Wall Hung Case

#### DISPLAY CASES

- All display cases are available in hinged door or sliding glass design
  - Sliding glass doors are fitted with bottom shoe, silent rollers and plunger lock
  - Hinged doors are fitted with full length piano hinge, reinforced corners and cam locks
- A single unit can be constructed in sizes up to 24'
- Back panel can be surfaced with vinyl, fabric, cork, tackboard, slotboard or hook fabric
- Satin anodized aluminum is standard. Dark bronze and black anodized or painted colors also available
- All case styles can be equipped with a header display
- All case styles can be illuminated
- 1/4" tempered glass is standard for safety
