

## INSTALLATION INSTRUCTIONS **EZ-HANG BOARD**

### EQUIPMENT REQUIRED:

Chalk Line  
Power Drill & Bits

Level  
#2 Philips Head Screwdriver

Wall Mounting Hardware  
Measuring Tape

Verify sizes and quantity of units delivered prior to installation. Contact Educational Equipment with any discrepancies at 330-673-4881.

Complete hanging hardware is included with each unit. If wall construction prevents the use of hardware as furnished, it is the responsibility of the customer to furnish the required fasteners.

### STEPS

(1) Determine the location and mounting height from the floor to the top of the board. Level & strike a chalk line at 1 1/8" down from the top of the board.  
EXAMPLE: 84" minus 1 1/8" = 82 7/8"

(2) Measure the overall board height & subtract 2 1/4". Level & strike a chalk line down that distance from the original chalk line.

**Note:** *Manufacturer recommends hanging clips 3" from each end & approximately 24" apart for proper board support. Screws should be fastened into existing wall studs.*

- a) **STUD:** Drill **9/64"** holes at 1" deep  
**or**
- b) **NO STUD:** Drill **1/4"** holes for the expansion plug. (Be sure to use the correct bit type)

(3) Install EZ Hang Clips with **Large** screw provided. Install L-Clips with **Large** screw through the center of the slot **snug** as to allow the clip to slide up & down.

(4) Once clips are installed, hang the board (two people recommended) on the EZ-Hang Clips. (Be sure that the EZ Hang trim has completely dropped into the EZ-Hang Clips before proceeding) Tap the L-Clips up to the Tray & install **small** screw provided.
